What I would love to see is more updates for games like minecraft, and many more updates. Also to add new games such as an RPG game (something similar to LOTRO) maybe something similar to wow where you come out of the game and control different characters. If we all work together we can get Roblox updated with these new games instead of waiting till now where there are a lot of glitches.

Her parents did not approve of this decision and they started a petition on Change.org to get their daughter unbanned back on Roblox. They stated that her ban would be a violation of their privacy rights as well as an infringement upon her civil rights, as a minor. The family requested that Roblox reverse its ban of Arielle and instead give her a warning to stop future harassment, which she committed while playing "Minecraft". The petition received more than 50,000 signatures in less than 12 hours. However, it was then reported by users that the petition had been removed from the website soon after it began. As soon as the petition was received by Roblox, it was announced that her account would be reviewed and further action would be taken in response to how she had "been conducting herself online".

I love Roblox, but there are a few issues that I think need to be fixed. I have noticed that there is a lot of adult themes, and people swear a lot (which is not acceptable, it should only be in forums, not in game). It also needs more updates. In my opinion you should only take down the website if you combat online harassment or if someone

steals someone else's idea. You can't create an account with your email address or password because the website doesn't know who you are. It only knows your username which is so unfair because someone could send harassing messages to other players without them knowing the real person. You should add more games and less glitches, with more updates. I really hope you take my suggestions into consideration, it would be great if you fixed all the big issues in Roblox.

1. Play games and complete tasks for developers. 2. Play games with your friends and make in-game purchases (i.e buying hats or clothing etc). 3. Watch videos played by other players and make in-game purchases (i.e buying shirts or clothing etc). 4. Buy the games from the store or on a marketplace website like G2A or Openpay 5.

One example of this is when the players can buy exclusive items that are only available for purchase through Builders Club membership.[53] Before March 2021, premium features were known as paid-for items. As of March 2021, all premium items in a game are referred to as "Builders Club Premium."

The ROBLOX site and forum have received a lot of criticism from its users regarding many issues, such as: Administrators are able to delete user-created games without warning or notice. Users can't defend themselves since the only way they could do so is by contacting an administrator or lawyer. Administrators can ban users for doing anything they don't like or don't agree with. However, administrators have been

known to ban users for no reason at all, usually if the user is a moderator or an insignificant/low-level user.

I was also kind of surprised at how far back the game went in time; it was created back in 2011, which I know is quite a long time ago. It's kind of scary how quickly things have changed since then. But though I am young, I thought that Minecraft was always meant for little kids; unlike Roblox, it wasn't purchased by me or my parents, and there were no advertisements present. So my opinion on both games is that they are really great for little kids because they're safe and easy to use. For adults, they are not worth the time. But from what I have heard, and from my own experiences, Roblox is a game that all kindergartners should be playing. It's definitely not recommended for adults or even teenagers.

ROBLOX has also been compared to popular game Minecraft. In many ways, they are similar; both games have been developed by one company (Tencent) and are usually sold on the same platform (Windows, OS X, iOS, Android). Another close similarity is that they both have their own in-game currency system. However, Minecraft has a different style of gameplay relating to platforming; while ROBLOX players build and destroy using building blocks, Minecraft players explore a world.

The player is able to skip these ads after 5 seconds, but if they do not and instead wait to see them out, then they will receive a small amount of ROBUX.
