The suit, which for the most part was dismissed, claimed that former CEO David Baszucki played an integral role in her firing as he forced the team to "ignore basic standards of professionalism". Rated 5 out of 5 by Anonymous from Amazing but scary I absolutely love this game. There is so much to do like make clothes, build houses, and even things on ROBLOX Studio. In February 2021, it was reported that a game called "Miner's Haven" has been criticized by Roblox users for having a suicide feature where players would have the option of killing themselves when their health reached zero. The players who played this game received a message from the developer named Master Zen said that he was working on an update that removed this feature. The update was released in March 2021 and it included an anti-suicide feature where the health would reset to 100 instead of 0. However, the developer confirmed that he would "still allow players to commit suicide if they are in the mood". To make up for this issue, Master Zen released a series of development updates that included fixing bugs and adding new features to "Miner's Haven".

I really liked playing my own games because it was fun to design a new world for my friends and myself. In my game I could make up anything I wanted. I could add trains, people, animals and pretty much anything else you can think of. I also liked making my own avatar because it gives me a lot of choices in making the way they look. Another thing I was really interested in was Roblox role play which is basically acting like someone else for a little while. You can choose one of your friends or even make up a new person and act like them until you want to stop again. This is good for kids because they get to learn how to act like they're someone else. It's also good for when they have to act in school and it can teach them a lot of things.
