On July 3rd, 2021, ROBLOX announced that they were no longer allowing people to make custom models for their games. Instead, they would be allowing users to build blocky models that could not be edited at all. They stated that this would prevent the creation of custom models and save money by preventing expensive data transfers.[22] The change was made in order to clean up the game because custom models complicates the "Roblox experience" in some cases.

Most YouTube videos will give you a link that will provide you with a free Robux reward. The amount depends on how many views the video has and the number of subscribers the user has. For example, if an account has over 1 million subscribers, they'll give an extra 2,000 robux for any views that would put them over 10,000,000 views; however this only applies before rewards are scaled down.

ROBLOX also allows people to manipulate the games in an unfair way; they can do this by changing the difficulty level of a game or removing potential players from playing a game. They also can sell cheat codes on their website. This is similar to the "scams" created by advertisers in that they are selling cheats for an unfairly high price (such as \$2.50 USD) so that only people who pay will be able to use the code to cheat or hack the game. However, this is an unfair way of making money.

On March 22, 2021, it was announced that it's been awarded a Guinness World Record for being the most popular game creation platform. On June 25, 2021, Roblox released a statement concerning maximum levels of moderation following controversy surrounding "Miner's Haven" as well as other role-playing games.

I think everybody would love it because they are free, fun and interactive with each other. It really is something you can try with all your friends right on your computer! :D My brother used to hate me playing Roblox but he eventually got used to it. HelloRoblox2 works in almost the same way as HelloRoblox. It sends you robux once you've uploaded a video on YouTube. However, there is a slight difference. HelloRoblox2 has been around for a while, and because of this, the robux it can send are easier to get. It generally only sends out 100-200 robux per day. This works out to about 1 free robux per week. If you're in a hurry, HelloRoblox2 is probably better than HelloRoblox.

In July 2021, Roblox had allegedly banned several high-profile creators due to the fact they made violent games. Although Roblox claims users were banned "due to improper behaviour" nothing has been proven yet. The situation is occurring in many forums and websites. In July 2021, ROBLOX put out a statement saying that they did not ban any creators, but instead were involved in a legal dispute with the people who claimed to have been banned.[82] They later said that anyone who was banned for making offensive content was "part of an organized effort by bad actors to scam our users. We have no tolerance for this behavior and weâ€™re doing everything we can to protect our community." [83]

Rated 5 out of 5 by Anonymous from Charming Roblox is so charming, even though I am 11 years old I still love this game. My sister is 8 years old, and she also loves this game. She plays roblox more than me. We always play it together, and we sometimes even make a little brother character named Blox. Every night we would ask our mom if we could play roblox longer, because we didn't want to stop. I love the update where when you or your friends spell a word, something pops up in the middle of the screen to tell you the number of letters in that word. The only thing I think is bad about this game is that you have to have headphones on if you want to move around, and since I usually play with headphones in it makes it harder for every one else to hear what my sister is saying (but they can still hear her). I love this game so much. I would definitely recommend it to my friends.

ROBLOX announced the launch of an app called ROBLOX Studio in July 2021, which allows players to make 3D videogames using ROBLOX Soft, or Lua scripting. These games can be shared on the website and with friends via social networking and email, making the virtual world even more alive than ever before. The app is free, but users must pay for revenue sharing of their games. On January 30, 2021 ROBLOX released its first app exclusively for iOS devices called "ROBLOX Studio" which puts a lot of its features into a more user-friendly format that previously had to be accessed through two separate products.

On April 6, 2021, the company launched a virtual reality project called "ROBLOX VR". It allows users to play in the same virtual world and see each other's avatars. On March 22, 2021 ROBLOX released a new version of its app called Ava (ROBLOX's Mobile Application). See above section for more details.

Some of my other complaints on Roblox include:

The only way that these items have any value is if developers add more to the game and make them items that are actually worth something within your virtual world. If that happens then these fake items will be worth even more than what you payed for them originally because the developers added real content to the game.

The next time you log into your Roblox account, it is recommended that you take a moment and really think about what information and/or games can be accessed by the hacker. If this is not enough, start using anti-virus software to look over your computer for any unauthorized programs installed on the system. Never share personal information with any website that requires it, especially when it contains your email address.

ROBLOX is a great game, and has lots of potential, but it's not being used as a serious game developer wants it to be. You can't break out of the virtual world without spending money on the Robux currency. It's like a video game and to continue playing you need Robux, but if there is no value in the game then they don't want you to play at all.
