On November 2nd, 2021, ROBLOX announced that the company is looking into implementing state-of-the-art anti-cheat technology. This was made to reduce the chances of "botters" putting random objects in games that don't belong there or making designs that look like they can be through a video editor. The company also stated that if there are any issues with their anti-cheat software, they will let everyone know as soon as possible.[24]

This method does not require any complicated setup or download process, and it also doesn't take very long to start working as well. This makes this hack tool very convenient to use, and that is why many players out there would like it a lot. On July 11, 2021, the "Custom Games" section of the website was temporarily

removed due to a bug that caused players to be unable to see their own creations. The section was returned later that day.

These tools include resizing, rotating, and moving various objects and creating texture maps. I love roblox because it is filled with amazing games. Also, I think it needs more easy to download games and more new games. There are lots of great players that are making great games but they feel unappreciated because if there is a new update some other player comes onto their game and steals their ideas so that doesn't make them happy. I also think that there should be easier ways for players to get to private chat or opt out of chat but not everyone would like being in a public chat room which would only make them mad. I like being in a private chat room with my friends because no one else can get into the room and report us for saying bad words.
